

PRECISION STRIKE TECHNOLOGY SYMPOSIUM 2001

Technologies to Enable World-Wide Precision Engagement

Kossiakoff Conference Center

JHU Applied Physics Lab

Laurel, Maryland

October 10-11, 2001

This year more so than ever as a result of the Quadrennial Defense Review, the operational concepts involved in the joint precision engagement mission are at the forefront for military policy makers and strategists. This symposium brings to government and industry the unquestioned experts in the field with presentations on the latest in technology and precision strike systems applications related to Weapons, C4ISR, and Targeting. The classified session on the afternoon of Oct. 11 will focus on threat briefings by the DIA and CIA and select precision engagement systems.
